

A Perfect Spring Day

By Santos

I believe that every day is a perfect day. What happens is that not every day has the same temperature and not all people like the same temperature. Of course, all recreational activities depend a lot on the weather, but we can do different activities or sports depending on the season of the year. So for me there are no bad days, there are different days.

For me spring is a very pleasant time because after winter, we are anxious for spring to come. For example, in the spring we go to the mountains to walk and see the landscapes and above all to have fun with the family. For me, that is a perfect day. On other occasions we go fishing and have a lot of fun. Also, we love soccer and spring is the perfect time to practice it.

In the spring the plants grow and the gardens are filled with flowers, so spring is definitely the best season of the year.

Spring is here. Trees, flowers, grass are coming out and sunlight makes long days. I like everything about spring but I don't really like when the pollen comes because I'm allergic to the pollen. I like spring because it is not really, hot, it's warm.

Eli

My Perfect Spring Day

By Rocio Frias

My perfect spring day is a day when I would get up early, refill the bird feeder, and sit outside on my rocking chair to drink my morning coffee and enjoy the view of the blue sky, listening and watching the birds singing in the distance.

I would also like to eat my breakfast, a delicious french toast, scrambled eggs with bacon and fresh orange juice, in the meantime watch my kids playing in the backyard with the dog.

On my perfect spring day, I would like to go with my family to the Reservoir Park to ride our bikes. It is exciting to admire the nature around us, the lake and all those beautiful colors. My favorite part is that the weather is really pleasant in spring, it is not too cold or not too hot.

That is how I imagine my perfect spring day.

It is sunny and warm today, April 1. I like to go to the beach when it is warm. First, I swim and lie out on the beach in the sun during the day. At night I go on rides in the park, I like spring because it is beautiful outside.

Paula Jaimes

The spring season is here again. It is a beautiful time when the flowers are blossoming. The trees have new green leaves; the morning is clear. The weather is not hot and not cold. I love to wake up to listen to the birds chirping.

Carmela Islas Alvarez

My week of spring break was a lot of work, even more work than other weeks. My children had the week off and we played in the afternoons. On Saturday they came to work with me. On Sunday, they had a barbecue and we shared some time with the family.

The spring time is perfect for me because I can spend time with my kids.

Together we grow vegetables in the backyard. First, I prepare the land then we add the fertilizer and finally we plant the seeds. Even though we do not follow the instructions properly, the plants still grow. When the plants come in, they are a mix and I transplant some vegetables to give them space. When the plants are ready to harvest, we use some for cooking and with others we make salad and with the rest, we give to my family.
